EXPERIENCE

Physics and Math Tutor

Islamabad

📅 May 2021 – Jun 2022

- Implemented tailored problem-solving methodologies in physics and mathematics, honing students' critical thinking and analytical skills. Fostered a deep understanding of problem-solving techniques, enabling students to tackle complex challenges with confidence.

Front End Developer Intern

NUST

📅 Jun 2022

- - During intern, I acquired practical experience in web development. I successfully applied HTML, CSS, and JavaScript skills to create projects, gaining hands-on knowledge in building engaging and responsive web interfaces.

PROJECTS

Dynamic Photo Gallery: React Firebase Instagram-like

(html, css, javascript, react, framer motion, firebase)

📅 April 2023

- Constructed "Firegrame," a dynamic photo gallery, utilizing React and Framer Motion for an interactive and visually captivating user interface.
- Integrated Firebase Storage for efficient file management and Firebase Firestore for structured data storage, delivering a user experience reminiscent of Instagram's seamless functionality.

Enhanced Security: Tailwind-React Password Generator

(html, css, tailwind, javascript, react, vite)

📅 Feb 2023

- Created a customizable password generator using React, Vite, and Tailwind CSS, enabling users to define character types (char, int) and desired password lengths for heightened security.
- Developed an intuitive interface to simplify the generation of robust and unique passwords, promoting enhanced online privacy and data security using modern web technologies

Weather App

(html, css, javascript, node.js, express.js,)

📅 Nov 2022

- Engineered a dynamic weather application utilizing Node.js and Express.js, seamlessly integrating a weather API for real-time updates.
- Demonstrated proficiency in backend development, API integration, and user-centric design through a responsive UI enabling city-specific weather searches.

EDUCATION

Bachelor's in Physics

National University Of Sciences And Technology (NUST)

📅 Sep 2019 – June 2023

FSc. Pre-Engineering

KIPS College Faisalabad

📅 Sep 2017 – Jun 2019

SKILLS

C/C++   HTML   CSS   SQL   JavaScript   jQuery   Git   Jest   React   Bootstrap   Tailwind

ACHIEVEMENTS

- Achieved the esteemed "Mr. FIT Award" at NUST in the bodybuilding category, demonstrating dedication to health, fitness, and discipline.   2022-2023
- Recognized as the recipient of the "Best Singer Award" in a prestigious HEC Universities singing competition 2022

PARTICIPATION

- As the Director of Admin Events at both NUST Media Club(NMC) and NUST Music Society(NMS), played a pivotal role in a wide array of events, ensuring their successful planning, organization, and execution.   2021-2023
- Event Head in SNS SPORTS GALA   2023
- Contributed as an integral team member(DD)in the NUST Orientation's Security Team, ensuring a safe and smooth event execution.   2022

CERTIFICATION

- CS50: Introduction to Computer Science -Harvard Uviversity
- Front-End Web Development META -Coursera
- Back-End Web Development META -Coursera
- Advaced React META -Coursera
- The Complete React -Udemy
